1. Cut cardstock or heavy paper to 8 x 2.75 inches.

2. Find the center of the long side, mark a half circle (about 1" diameter) and cut.

3. Fold in half, leaving the little tab up.

4. Round all four corners.

5. Stick a piece of magnet tape to one side and place another piece of tape on top (with the sticky side up). Fold over, so the tape sticks the top side of the paper.
